December 14, 2020

Dear MDS Stakeholders,

The following information is being provided to help ensure that we are prepared for the second half of the school year.

CHROMEBOOK AND HOTSPOTS

To help maintain effective communication between home, teacher, and the Internet Technology department, the following procedures will be implemented when returning any device for damages or maintenance:

1. Parent must verbally inform teacher of problem with the device.
2. Parent will provide a written statement describing the reason for return of the device, signed, and dated.
3. Call the front office to schedule an approximate time for drop off.

We appreciate you understanding that we are limited on devices and will work with all families to provide a replacement, however this may not be possible. All returns will be handled on a case-by-case basis and noted in your child's attendance record.

TUTORING AND ENRICHMENT

These two programs have unofficially begun at this time. Official notifications and information to parents have been delayed due to recent health related precautions taken by the administration personnel. Official attendance for tutoring will begin after the holiday break. Permission forms will be arriving the week of December 14th-18th on the lunch delivery run.

SCHOOLGY PARENT PORTAL

The instructional staff has recently received training in managing the parent portal and grade book tools. You will be receiving parent codes from your child's teacher. At this time there may be little to see, however, over the next few weeks teachers will begin to set up gradebooks so parents can track progress. Teachers will host parent class meetings the first week of the new year to help guide and answer questions you may have.
